NEW ATTRACTIONS

When Disneyland opened, Walt Disney promised that it would "never be completed, but will continue to grow, add new things, as long as there is imagination left in the world." Each year since opening in July, 1955, Disneyland has added new and unique attractions for the enjoyment of its guests. There are now 45 exciting adventures inside Disneyland. The latest additions are:

THE GRAND CANYON: Viewed from the trains of the Santa Fe & Disneyland Railroad (including the new Excursion Train). It is the longest Diorama in the world.

THE "COLUMBIA": A three-masted, fully rigged 1790 sailing vessel on the Frontierland river.

ALICE IN WONDERLAND: Through the Rabbit Hole are the happy, topsy-turvy adventures from this famous story. Located in Fantasyland.
